

Learning to work with fibers and textiles will give you skills you'll use your whole life! If you didn't learn crocheting or knitting from your grandmother, this is definitely the class for you! We'll look at some classic crafts, but more importantly use those skills to create crafts that look good now and could make great Christmas gifts!

**Skills we'll cover include:**

- Learning basic knit stitches to make a triangular scarf or shawl.
- Crochet techniques to make fabulous edgings for pillow covers, table runners, and funky clothes.
- Upcycling thrift store items with fabric paint, bling, and fiber design to make accessories or home decor.
- Revisiting some classic grandma fiber designs!

\* A materials list will be posted well before class so students can purchase their own materials, or the instructor can provide materials kits for purchase.
