

Class Description:

This course is designed to be a student's first systematic introduction to the sciences. The course covers such topics as:

- scientific method and designing experiments
- simple machines
- archaeology, geology, paleontology
- life science and marine biology
- human anatomy
- introduction to chemistry and physics

This course lays a foundation for students with many hands-on experiments. The tutor leads the students in extensive lab work and lab report writing. Students develop study skills through the coursework and refine collaboration skills through group lab work enhancing their academic skillset.

Required Internet access for students to receive assignments and class notices, download supplemental reading and worksheets, and link to applicable website.

Materials:

- **1 inch, 3-ring binder**

Texts:

- Exploring Creation with General Science 3rd edition
ISBN: 978-1-946506-27-6
- Solutions and Tests for Exploring Creation with General Science 3rd edition
ISBN: 978-1-946506-28-3
- Exploring Creation with General Science 3rd edition Student Notebook
ISBN: 978-1-946506-30-6

You can find the books at Apologia.com or Amazon.com.

Note: Tuition covers all lab materials used in class
