

THIS IS A ONE-SEMESTER CLASS OFFERED SPRING SEMESTER ONLY. PARENTS MAY ENROLL IN THIS CLASS WITH THEIR STUDENTS. YOU MUST ADD THE PARENT AS A "CHILD" ON YOUR FAMILY'S PROFILE TO REGISTER.

Class Description:

Origami Omnibus! In this class, we will learn all about origami, the history, its applications to our world today, folding genres, masters of the art and how to fold! Origami class will cover:

1. What is origami? Where does it come from? How is it created? What are the rules? And many more explanations of the craft.
2. Folding genres: Traditional models, action models, representational models, modular models, wet-folded models, money fold models, non-square paper models and more! We will learn many models in each category.
3. Masters of origami (past and present) their impact on the art and our world.
4. Origami's applications to science, medicine, auto-industry, architecture and more!
5. The health benefits of origami

Students will need to bring scissors, glue stick and markers.
